

# Plant Manager

Primagaz Scandinavia is looking for a new Plant Manager to take on the responsibility for our filling Plant in Odense, where we annually fill gas into over half a million gas cylinders for the Danish market.

Primagaz is a part of SHV Energy a Dutch family owned international Energy company with activities around the world.

## Duties and Responsibilities

As Filling Plant Manager you are to report to the Scandinavian Operations Director and join the leading LPG supplier in Scandinavia, running our filling plant in Odense and managing a team of 10 people in total.

As Filling Plant Manager you will be responsible for;

- Planning and execution of our production for Denmark in close cooperation with your team.
- Strengthening people development in the production team.
- Optimizing the production on both a day-to-day scale and with larger improvement projects.
- Leading our safety efforts ensuring a safe working environment according to our motto: 'Safety first'
- Working closely with logistics and sales to ensure we have the right product mix and production.
- Improving the quality of administrative processes.

In short: you will be in a central role with a broad hands-on responsibility and with lots of challenges and development opportunities.

## Professional experience & requirements

Your background covers production management experience supplemented by a relevant educational background.

As a person, you are a natural and authentic leader, capable of working with people on all levels. You can work without too much supervision, result oriented, proactive, accountable and energetic. There will be aspects in our production which isn't always ideal, so you will need to be able to prioritize on the things that matters, and not be afraid of thinking creatively when it comes to solutions.

We offer you opportunities in a challenging role where you will experience a high level of exposure to the organization and get the opportunity to make a difference in an informal work setting.
