

# Head of Trading & Portfolio Management

*Andel has lately been renamed from SEAS-NVE*

*Do you have interest in and insight into the dynamics of the energy markets and the financial markets and is driven by creating results and value for the business in an industry that is in rapid development? Are you passionate about trading, energy and Leadership? Then you might just be what we are looking for!*

We are currently recruiting for an ambitious Leader to a role as Head of Trading & Portfolio Management in one of the largest Energy Companies in Denmark.

At Andel, we have an ambitious strategy for our trading activities within energy, where trading strategies in the gas and power trading business must be developed and executed in a dynamic and international market.

As Head of Trading & Portfolio Management, you will manage a team of traders, portfolio managers and analyst, which handles the overall management of the gas & power portfolio and risk hedging of the energy business' overall positions in the market. We have an agile approach in our energy trading business with a short distance from analysis and development of trading strategies to commercial execution in the market. It is therefore important to us that you possess a solid commercial and managerial mindset, work in a structured manner and have the ability to create an overview in a sometimes hectic everyday life where you get to work with both operational and strategic decision making in one of the leading energy companies in the Nordics.

You will manage a team of +10 dedicated employees who are responsible for trading, risk management, optimization and pricing of our gas and power activities in Andels's Energy Market division. We have a workplace in Svinninge.

## **Your responsibilities will include:**

Daily management of team of traders, portfolio managers and analysts/quants

- Price desk operation towards retail business (B2C/B2B)
- Portfolio Management of consumption portfolios (hedging)
- Daily balancing of gas portfolios (electricity to come)
- Trading in financial and physical product

Proactively identify, propose and develop profitable trading opportunities and strategies

- Development and execution of hedging and trading strategies
- Develop and maintain relevant models to support the trading strategies
- Adding value to existing business across all activities

PnL Responsible for trading of power, gas, CO2 and RECS

- Annual turnover of approximately 17 TWh power and 28 TWh gas
- Target return on activities is approximately DKK 30 mill.

Ensure effective operation within the trading

- Develop the use of AI and ML in tools/models
- Ensure compliance of issued mandates and strategies

Ensure alignment with both external and internal stakeholders

- Onboarding of new counterparts
- Participate in risk committee meeting with executive board
- Participate in market forums and give input to new legislation and regulation

## **Your qualifications and personal skills include**

- Degree in business, finance, economics, mathematics or similar

**Job Title:**  
Head of Trading & Portfolio Management

**Application Deadline:**  
As soon as possible

**Company:**  
Andel Energi A/S

**City:**  
Svinninge

**Country:**  
Denmark

**Contact person:**  
Brian Ranvits

**Phone number:**  
+45 2048 0548

- 3-5 years of experience leading a trading team
- Experience from trading and/or analysis within commodities or a financial institution
- Strong leadership capabilities with a strategic mind set with the ability to make deep dives into specific matters
- Ability to keeping a cool mind in all situations
- Analytical and structured approach, able to analyse and react fast to new opportunities

### **Working at Andel**

To be the frontrunner in the green energy transformation, we invest significantly in innovation and empower our employees to help shape the renewable energy technologies of the future. We cultivate a collaborative, dynamic and diverse work environment and encourage career-long learning and development so our people can realize their full potential.

*Our unit forms part of the cooperatively owned company SEAS-NVE – lately renamed to 'Andel', whose mission is to create energy to live life, through sustainable electricity deliverances and facilitation of customers' access to our new digital reality and ways of socializing online. This supports our vision of becoming each other's best connection.*

*We take our responsibility seriously, and therefore aim to create valuable impact on people's lives through any business activity or engagement in local communities and projects, that supports our greater purpose. Andel's sub-brand CLEVER (Denmark's leading electric mobility operator) and ownership in Fibia P/S, are only few examples of contributors to our valuable purpose.*
